

give2givehope

food • clothing • medical care • education • hope

*thousands of hours are lost each day by women & children seeking safe water

* a child dies every 15 seconds from waterborne diseases

*without clean water, chronic illness abounds...
attendance at school & work drops...
education & work performance decrease...
scarce resources are spent on medicines

join us in providing
clean water for
children & their families

project clean **hope**

project clean **hope**

Sawyer
PointONE™ Filter

*Up to **500 gallons** of potable water per day - cleaner than U.S. bottled water. Gravity-operated with no moving parts or electricity required. Anyone, anywhere can have clean water **in a matter of seconds**.

*Each filter is able to provide more clean water per day than what a family can use - and will last **10+ years**.

*Each filter is certified for **ABSOLUTE microns**; that means there is no pore size larger than 0.1 or 0.02 micron in size. This makes it impossible for harmful bacteria, protozoa, E. coli, Giardiasis, Vibrio cholerae and Salmonella typhi (which cause Cholera & Typhoid) to pass through the filter. **At 7 log (99.99999%) the filter attains the highest level of filtration available today.**

*Works for **all water sources** (ponds, lakes, cisterns, rivers streams, shallow / deep wells, rain water, spring water).

* Developed using dialysis technology, yet **incredibly easy to maintain** using included backwash syringe.

*Improves health, strength to work, and ability to go to school. Reduces household labor burdens securing clean water. Saves wood/fuel used to boil water and reduces carbon footprint caused by use of stoves.

\$100

- covers the cost of ...
- a Sawyer PointONE filter
 - delivery to remote site
 - clean water bucket
 - storage bottle
 - educational materials
